An Excellent Color Doppler System for Clinical Specialists

© All image rights remain the respective Manufacturer reserved.

Clinical Applications

- Abdominal
- OB/GYN
- Small parts and superficial
- Musculoskeletal
- Vascular
 - Cerebrovascular
 - Peripheral vascular
 - Intraoperative vascular
- Cardiac

Imaging Modes

- B-mode B/B 4B
- M-mode
- Anatomical M-mode
- Pulsed Wave Doppler &
- 3D & 4D (real time 3D imaging)
- 2D optimization Signal

Processing

- Tissue Harmonic Imaging (THI)
- spatial compounding
- Contrast imaging
- Adaptive Doppler
- Adaptive Color Doppler
- Color Tissue Doppler imaging
- Pulsed wave tissue Doppler

Configuration

- 15 inch LED
- 2 probe connectors
- 500GB HDD
- Multiple peripheral interface

Imaging

2D - Liver

CFM - Carotid

CFM - Liver

Kidney

PW - Carotid

4D - Card

SONOSIGHT T1

Best performance and price ratio, the best solution for OB/GYN & Superficial soft tissue & small parts

• The T1 based on the revolutionary new platform, combining with Sonosight core imaging technologies, T1 incorporates all of the proven technologies and functions that radiologist and gynecologist have come to expect.

• T1 represents the new Standard of Sonosight series products which focus on the performance and price ratio. At the same time, T1 provides best solution for clinical doctors.
